The History of Circus Clowns

The website will detail the history of Clowning around and list many famous Circus clowns. It will also be an exploration of how clowns are depicted in media, from novels to television. How circuses are operated will also be explored within the site to give some background to the content from each clown. There will also be a vote for people's favorite clowns with a section that allows for custom answers. A bit like voting for a 3rd party during election time.

Different site tabs
- Home
- Famous Clowns
- Clowns in the Media
- Circus Operation
- Your Favorite Clown
- Clown Rankings
- About the Author

Votes will be tallied and displayed on a pie graph on one tab. You will be able to add custom votes, but they will be checked before being displayed on the graph. If enough of one custom vote is made it will be added as a normal vote. There will need to be accounts made for users so the graph won't be skewed from repeated votes from one individual. A username and a pin code rather than a password will be used for each individual. Of course someone could just make multiple accounts so I could tie it to an email.
